

Letters No. 11

Camp near Warrenton Va

Oct 30 / 63

Dear Friends I have to take  
the humblest way to write this  
time, you will probably know  
the reason before you get this  
why I write again so soon is to  
let you know how I get along  
& about how sick am, my  
diarrhea is a little better & not but  
a little. Besides that I have  
got what the Dr. calls Recur-  
tant Typhoid Fever, this fever runs  
from 8 to 10 days, I came here  
Monday to the hospital, it was on me  
then, now it is Friday, I have  
to lay bed most all the time, but  
can get up & walk enough to wait  
on my self some, I have perfect confi-  
dence in the Dr. & I have first rate  
good care, the nurse is a nice fellow
